Conference announcements	
10 th Gdańsk Conference on Graph Theory	9
21–26 June 2026, Monash University	
48 th Australasian Combinatorics Conference	11
7–11 December 2026, Monash University	
Reports	
47 th Australasian Combinatorics Conference	12
<i>N. Brettell</i>	
CanaDAM 2025	14
<i>Karen Meagher</i>	
OpeRa 2026	16
<i>Gianira N. Alfarano, E. Berardini, M. Borello, and F. Zullo</i>	
23–27 February 2026	
Obituaries	
Ron Mullin (1936–2026)	23
Open research problems	26
Are there greater expectations for diagonal Ramsey numbers?	26
<i>G. Chartrand and P. Zhang</i>	
Peer-reviewed contributions	32
A note on one-hole domino tilings of squares and rectangles	32
<i>S. H. Byun and W. Goddard</i>	
A 2-person game decomposing 2-manifolds	44
<i>D. R. Berman and L. O. Leonard, Jr</i>	
Computational lower bounds for weakened Ramsey numbers from strongly regular t -colorings of complete graphs	56
<i>M. Budden, L. Goch and J. Hiller</i>	
Construction of local antimagic 3-colorable graphs of fixed even size: Matrix approach	68

<i>G.-C. Lau, W. C. Shiu, M. Nalliah, and K. Premalatha</i>	
Further results on the metric dimension of circulant graphs with 2 or 3 generators	90
<i>M. Farhan, M. G. Fauzan, and E. T. Baskoro</i>	
Peakless Motzkin paths of bounded height	98
<i>H. Prodinger</i>	
The deleted edge numbers $de(P_m, K_{1,n})$ and $de(K_{1,3}, K_{m,n})$	110
<i>R. Lakshmi and D. G. Sindhu</i>	
The number of paths in uniform cactus chains	123
<i>P. Chodok, P. Meeboon, P. Kaemawichanura, and N. Klamsakul</i>
